Professional Experience

Co-founder & CTO | Pixpa Digital

Apr 2009 - Jan 2014

Pixpa being a technology SAAS project, managing core team, designing server infrastructure, database design and management was all part of my responsibilities. But selecting the right technology, designing the application architecture, mentoring development team and integrating various support applications into Pixpa was my main job.

Sr. Associate | Sapient Corporation

Jan 2007 - May 2008

Scope of work included mentoring a team of 8 Interactive Developers and providing them leadership and expertise to face day-to-day challenges. Providing support to the team, involved in maintenance and enhancement of sapient.com web site, macro sites and intranet applications. Also involved in content management and enhancement strategies development.

Software Engineer | NIIT Ltd.

Apr 2005 - Dec 2006

Scope of work included development of customized knowledge solutions and LMS integration. Also involved in requirement analysis, knowledge solution design, effort estimation, pricing and preparation of proposal document.

Associate - Graphic Design | GE Learning (GECIS)

Apr 2003 - Mar 2005

Scope of work includes analyze, design & develop learning solutions for GE companies like GE Health Care Systems, GE Power Systems, GE Aircraft Engines etc. Won ZD Champ Award for constantly delivering Zero Defect work for 6 months.

Frontend Developer | Zed-Axis Technologies

Feb 2001 - Mar 2003

During this period, I worked as web developer on various e-learning projects, websites, and small web applications from reputed clients like NIIT, Credensys, Samsung, LG, IBM, Max New York Life, HCL etc.
